

CONSTRUCTION REPORT THROUGH “SAVE NEIGHBOUR PROJECT. “ PASTOR STEVIN HOUSE.

The construction of one house which was started on 5 sept 2022, This construction is among of the three houses that is expected to build all in this year (2022) through “Save neighbor project” program.

This is house of Pastor Steven. He current was living with both his children and grandchildren in one house. He has large number of people in his house and the appearance of the house was bad as we showed on the last report. He is a pastor, he receives visitors every day in his house especially church’s members to receive service, according to this reason we have suggested to start construction to his new house which is big can accommodate all of them. The construction follows all criterial of budget which was made.

The maximum budget of the house is 5 million. The house is going to be finished, now we do all final finishing then after they will be delivering the house.

The following below are the pictures of new house of pastor Steven.

The house has 2 bed rooms, store and kitchen.

After finish this construction, we expect to start building other two houses for the two families through the plan of “Save neighbor project” program in this year (2022).
